NORSK GEOLOGISK TIDSSKRIFT

Norsk Geologisk Tidsskrift

A Norwegian journal of geology issued quarterly by the Norwegian Geological Society (Norsk Geologisk Forening). Founded in 1905. The journal has as its general aim to publish review articles, papers, notes and discussions with relevance to the varied and complex geology of Norway, the Polar regions and adjacent offshore areas. Accordingly scientific papers from all geological, geophysical and geochemical disciplines will be considered for publication.

SPONSOR

The Norwegian Research Council for Science and the Humanities (Norges almenvitenskapelige forskningsråd).

EDITOR

Eiliv Larsen, Trondheim.

ASSOCIATE EDITORS

Allan Krill, Ola M. Sæther, Trondheim.

SECRETARY

Eli Hassel, Trondheim.

EDITORIAL BOARD

Anthony T. Buller, Trondheim; David L. Bruton, Oslo; Tore Torske, Tromsø; Gunnar Juve, Trondheim; Hans P. Sejrup, Bergen; Brian Robins, Bergen; Olav Eldholm, Oslo.

MANUSCRIPT ADDRESS

Manuscripts conforming with the instructions given on page 3 of this cover should be addressed to: Editor of Norsk Geologisk Tidsskrift, Norges geologiske undersøkelse, Postboks 3006, N-7002, Trondheim, Norway.

BUSINESS ADDRESS

Communications regarding accepted manuscripts, proofs, orders for offprints, subscriptions, etc. should be sent to the publisher's office in Oslo (see below).

PUBLISHER

Universitetsforlaget AS (Norwegian University Press), P.O. Box 2959 Tøyen, 0608 Oslo 6, Norway. U.S. address: c/o Publications Expediting Inc., 200 Meacham Avenue, Elmont, NY 11003, USA.

SUBSCRIPTION PRICE

Members of the Geological Society of Norway (Norsk Geologisk Forening) who have paid their annual subscription (NOK 300,-) receive the journal free from Universitetsforlaget AS (Norwegian University Press). Membership subscriptions, changes of address, and communication from members concerning the journal should be sent to the Treasurer, Norsk Geologisk Forening, Geologisk Museum, Sarsgt. 1, 0562 Oslo 5, Norway.

Subscription price for non-members of the Norwegian Geological Society (postage included for four issues per year) is: Nordic countries only: NOK 575.00. all other countries: USD 105.00. Airmailed to subscribers in the Americas.

This journal can be ordered in microform from University Microfilms International, 300 North Zeeb Road, Dept. P.R., Ann Arbor, MI. 48106, USA.

©1989 Universitetsforlaget AS (Norwegian University Press). Authorization to photocopy items for internal or personal use, or the internal or personal use of specific clients, is granted by Universitetsforlaget for libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of \$3.00 per copy is paid directly to CCC, 27 Congress Street, Salem, MA 01970. 0029-196X/89/\$3.00. All other rights, including microfilm, reserved.

U.S. Mailing notice – Norsk Geologisk Tidsskrift ISSN 0029-196X is printed in the UK and published quarterly by Universitetsforlaget AS (Norwegian University Press), Oslo, Norway. U.S. Postmaster: Send address changes to Norsk Geologisk Tidsskrift, Publications Expediting Inc., 200 Meacham Avenue, Elmont, New York 11003. Air freight in the U.S. by Publications Expediting Services, Inc. Second Class Postage rate paid at Jamaica, N.Y. 11431.

Instructions to Authors

Norsk Geologisk Tidsskrift publishes papers in English, exceptionally in French, German or the Scandinavian languages.

Authors proposing or introducing new stratigraphic names are requested to conform to the rules given by the Norwegian Committee on Stratigraphy (See *Norsk Geologisk Tidsskrift* 66, *Suppl. 1*) and to contact the Committee to obtain approval of these new names: Norsk Stratigrafisk komite, NGU, Postboks 3006, N-7001 Trondheim, Norway.

Manuscripts with abstract, references, figures and tables on separate sheets, should be sent in triplicate to the Editorial address on page 2 of this cover. The author's permanent and temporary addresses must be given. Manuscripts accepted for publication will not be returned to the author unless requested. The author is requested to retain a complete copy of the manuscript. Proofs will be sent to the author. The proofs should be read carefully and returned promptly. The author will be charged for changes against the manuscript made by him in the proof. Reprints should be ordered on the form provided when returning the proofs.

MANUSCRIPT.—The manuscript must be written on one side of standard sized paper, doubly spaced, and with approximately 5 cm margins. The text must be clear and concise; before submission the manuscript should be checked by a linguistically competent person. Manuscripts should be arranged in the following order: (1) Concise and informative title. (2) Author's name unabbreviated. (3) A short abstract, not exceeding 12 lines. It should always start with the name of the author(s), title of article, *Norsk Geologisk Tidsskrift* with space left for Vol. No. and page numbers. The abstract should convey the scope of the paper, emphasizing the results and conclusions, not merely describing the contents of the paper. (4) The author's name and professional postal address underlined. (5) The main text. Use three or fewer grades of headings. All headings should start at the left-hand margin and be typewritten in lower case: they are not to be underlined (except those to be italicized). Brief *Acknowledgements* of grants and other assistance, if any, should be placed at the end of the text. Indicate in the left-hand margin the approximate positions for the insertion of Figures and Tables. The words Figs. and Table should be written with capital initials and should be referred to in the text by their number. (6) A list of References conforming with the examples given below. Abbreviations should not be used: complete journal titles should be given in the list of references. Use the ampersand (&) for all joint authorships in the reference list and for double authorship in the text. Use et al. for references with three or more authors in the text. (7) Figure captions on a separate sheet. (8) Tables should be numbered with arabic numerals, each having a descriptive heading and typed on a separate sheet. Very large Tables should be typewritten on separate sheets to be printed on facing pages. They must be typewritten on good quality paper with all rules drawn in with a fine pen.

ILLUSTRATIONS.—All illustrations should generally be termed Figures (not Plates) even if occasionally covering an entire page. Photos or photocopies of original figures should be enclosed with the manuscript. No original Figs. should be submitted before the manuscript has been accepted/revised. It is recommended that Figures are constructed either for the entire width of the printed page (i.e. 140 mm) or for the width of one column (i.e. 67 mm). If this is not possible, avoid final widths between 104 and 140 mm. The maximum printed size in NGT is 140 × 185 mm. Letters should not be smaller than 1 mm after final reduction for printing. Photographs should be clear, sharply contrasted, and printed on white paper with glossy finish. Slides are not accepted. Figures may be composed of several units (A, B, C, etc.). All units should be similar in tone. All figures should be marked with numbers in arabic numerals, and the author's name. Do not attach captions to the figures. When not obvious, the top and the bottom of Figures, and their scale, should be indicated.
